

ARI BARNETT-GOODWIN-Baltimore, MD

Ari is studying Electrical Engineering at Capitol Technology University. Having an interest in electronics at a young age, he has written many lines of code and helped those in need with his expertise. As a mentor of the Baltimore Bolts, Ari enlightens the students with his ludicrous robot driving skills from his student years. Although his expertise is not limited to technology, you can find him studying foreign languages such as Spanish and Mandarin and finding satisfying tacos al pastor.
