

Hi! My name is Aiesha Chaudhry. I have been involved with FIRST for over 8 years, from elementary school through high school. I am an alumni of FTC team 12518, Almond Robotics. Currently, I am studying Biomedical Engineering at Johns Hopkins University. I am incredibly grateful to FIRST for giving me such a fun and enriching experience that led me to where I am today. I look forward to giving back to the FIRST community as a volunteer and mentor!
