

Hi! I'm Ryan, a second year at the University of Virginia and a former member and current mentor of FRC team 2106, The Junkyard Dogs from Goochland! I've been involved with FIRST since the 5th grade in FLL, and it's one of my greatest passions. FIRST inspired me to study mechanical engineering and has easily been the most impactful experience of my life. I can't wait to work with more teams!
