

I started in FIRST as a mascot to my older brother's FLL team and was hooked once I saw Gracious Professionalism in action! After graduating FIRST and high school, I attended Virginia Tech for Mechanical Engineering. Upon receiving my degree in 2021, I was hired by ESS Technologies as an engineer for automated, robotic packaging lines. When I'm not working, I coach FTC Team 4924, the Red Beard Pandas! I am honored to have been an Alumni AmBASSador since the program was first created in 2019, and I hope I can continue to represent what FIRST is all about!
