

My name is Srivatsaan Kalpana Sreenivasan (Sri) and I am an alumnus of FLL and FTC. I was introduced to FIRST by starting an FLL team in middle school. After FLL, I moved on to FTC where I was on team 7393 (electron Volts) for the entirety of high school. While on the team I held many roles such as outreach coordinator, vice team captain, and team captain. I had the pleasure of winning the Control award at States (2021,2022) and qualifying for Worlds (2021) with my team. I am looking forward to continuing with FIRST by being an ambassador.
